**PROPOSED CHANGES TO THE DRAWINGS**

Box AF  
Assistant Commissioner for Patents  
Washington, D.C. 20231

Dear Sir:

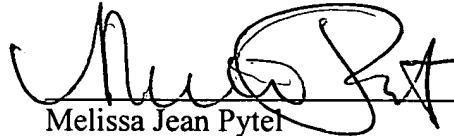

Applicants propose to amend Figures 1, 6 and 7 as shown in red on the attached copies. Figure 1 has been amended as suggested by the Examiner in the Office Action mailed January 30, 2001. Figure 6 has been amended to recite both SEQ ID NOS 1 and 2. It is clear that Figure 6 (drawing 7/12 to 9/12) contains an amino acid sequence (top line) and a nucleotide sequence (bottom line) of porcine secretor. These are, respectively, SEQ ID NOS 2 and 1 in the sequence listing. Figure 7 has been amended to recite both SEQ ID NOS 3 and 4. As with Figure 6, it is clear that Figure 7 (drawing 10/12) represents the amino acid sequence (top line) and the nucleotide sequence (bottom line) of pig H transferase. Therefore, the amendments to the Figures do not add new matter.

With the Examiner's approval, the changes will be made to the formal drawings in due course.

Respectfully submitted,

MERCHANT & GOULD P.C.  
P.O. Box 2903  
Minneapolis, Minnesota 55402-0903
